Patrick Wood explains link between global ‘One Health’ Initiative, Gaia Worship and Technocracy – Exploring The Darkness – May 11, 2024

Excerpt: "...this is an age-old religion associated with paganism, Wicca, and Gaiaism, and it needs to be called on the carpet for what it is!"

By [Leo Hohmann](#) May 10, 2024

Some say the coming one-world religion will be Islam. Others say it will be a blended version of the three “Abrahamic” faiths — Islam, Judaism and Christianity. Any of these theories could turn out to be the correct one, but I think Patrick Wood, editor in chief at [Technocracy News and Trends](#), deserves to be heard regarding another possibility. He just released a new article about the fast-spreading earth worship-based **One Health Initiative**, which is supported and promoted by the United Nations World Health Organization, the Rockefeller Foundation and World Economic Forum all the way down to our state and local healthcare systems. He connects all the dots in the excellent article below, while including helpful graphics and a video. This is something all Christians need to be aware of.

By Patrick Wood at [Technocracy.news](https://www.technocracy.news)

The First Amendment starts with, “Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof.” Congress has largely been asleep as forces with the Administration have proliferated “One Health” policies that seek to merge man and the earth into oneness. However, this is an age-old religion associated with paganism, Wicca, and Gaiaism, and it needs to be called on the carpet for what it is!

The Center for Disease Control (CDC) defines One Health as:

*“One Health is a collaborative, multisectoral, and transdisciplinary approach — working at the local, regional, national, and global levels — with the goal of achieving optimal health outcomes **recognizing the interconnection between people, animals, plants, and their shared environment.**”*

Another 19 Federal agencies are wrapped into the One Health mantra, having been sucked into the “whole-of-government” vortex created under the Clinton administration. Because of the myriad regulations created to enforce it, states, counties, and cities are steeped in it.

The Absurdity of the Two State Solution Crowd – News With Views - By Pastor Mike Spaulding - May 12, 2024

Excerpt: Asking why we continue to see and read of the hatred and vitriolic rants against the nation of Israel often sounds like a “broken record.” I have surmised that we will continue to hear and see the incessant spewing of Antisemitism because those expressing these views are short on reason, rational thinking, and logical, analytical deduction skills. This is not meant as an insult. This is observably true. What else can possibly explain the lack of comprehension among so many?

A simple way to address the widespread disinformation and subsequent rants of those who hate Israel would be to ask a series of questions and wait for an accurate and meaningful response. For example, I would ask someone who has expressed the kind of thinking that denigrates Israel as the sole cause of the many issues facing the region, this simple question: “When did the Palestinian people organize their land and establish its local governing authorities?” Israel is always spoken of as occupying the land of the Palestinians, so when did the Palestinians organize their land and set up a government to govern it and them? The answer of course, is, never. There is no such thing as the land of the Palestinians or Palestine.

Any honest historian will state that the Palestinian “problem” was created by Arab and Muslim nations who refused to admit those Arabs and Muslims who fled Israel in 1947-48 at their insistence. When Arabs and Muslims left Israel, the people including the leadership of the new nation asked them to stay. Today, the same problem exists because Arab and Muslim nations will not allow the Palestinians to immigrate to their countries. Those nations see the Palestinians as both a bargaining chip against Israel and a likely domestic problem for peace if allowed to immigrate. The reality is that the Arab and Muslim nations will never permit the Palestinians to enter their nation because along with them come the dangerous tentacles of Hamas and Hezbollah. There is much to be gained by the Israel haters by continuing the erroneous global optics of Israel as the villain in the story of the Palestinians.

How We Can Stop the WHO's Horrific Pandemic Treaty – Mercola - Analysis by A Midwestern Doctor – May 8, 2024

Excerpt: STORY AT-A-GLANCE

- **“Preventing” pandemics is one of the most lucrative areas in medicine. Sadly, this money has incentivized “preventative” research which frequently leads to disastrous leaks and suppresses effective solutions for the pandemics that emerge**
- **COVID-19 was handled so egregiously that it woke much of the public up to this grift and the pandemic-industrial complex is now facing an existential threat to its business model**
- **To address this “threat” the WHO (World Health Organization) has covertly created a treaty behind the scenes which usurps national sovereignty and gives international health agencies terrifying control during “health emergencies”**
- **A grassroots activist movement advocating for health freedoms has accomplished something remarkable in their fight to derail the WHO treaty and they need your help**

Throughout COVID-19, the more money countries spent complying with the WHO’s guidelines for mitigating COVID-19, the more people died.¹ Because of this, many countries in Africa had a COVID-19 death rate which was less than 1%² of that seen throughout the Western World.

Rather than admit this, the WHO is using those deaths to justify a horrific treaty that dramatically increases its power to control each nation’s pandemic response. Since its most evil provisions (e.g., complete censorship of dissenting voices and the promotion of dangerous bioweapons research that inevitably leads to catastrophic lab leaks) have been effectively concealed by the WHO, it is necessary to understand exactly what is in it so that we can stop it.

SOS: Stop the World Health Organization's Tyrannical May 27 Power Grab –
Gatestone Institute - by Robert Williams - May 13, 2024 at 5:00 am

Excerpt:

- **The proposed amendments to the International Health Regulations give the WHO Director General the authority to declare not just an actual but a *potential* international public health emergency and set out binding recommendations on how to address it, whether individual states agree with him or not.**
 - Worse, no criticism of the new WHO regime and its decisions to declare potential or actual pandemics, lockdowns and treatment, including vaccines, will be allowed under the amended IHR... In other words, the government lies, obfuscations and cover-ups that so dominated the last pandemic will become normalized, and all criticism outlawed.
 - Already, Dr. Tedros Adhanom Ghebreyesus (not a medical doctor) has castigated critics of the planned amendments and new Pandemic Treaty as conspiracy theorists who spread "fake news, lies and conspiracy theories."
 - Since the UN claims that to "owns the science," it is now brainwashing the public into believing that "climate change" threatens global health. This view makes it likely that you will one day find yourself in a WHO-mandated lockdown to mitigate the effects of the "climate crisis," along with limits on where you go, how you may get there, what you do, and what you can own.
 - The US is already seeing forerunners of this in the Biden administration's unconstitutional executive orders, possibly including his attempts to ban internal combustion engine vehicles and gas stoves; mandating dishwashing machines that may need repeated cycles to clean dishes, and new stricter regulations on air conditioners, washing machines, refrigerators, and even leaf-blowers -- and this is only the beginning.
 - The WHO is not elected, has no democratic legitimacy, is not accountable to anyone and has no control mechanisms to restrain its reach. After the horrifying failures of the WHO during Covid-19, the answer is not to give the organization more power, but to disengage from it entirely.
 - The UN and the WHO evidently want unlimited control. If they are not stopped right now by national governments that refuse to approve the new Pandemic Treaty and proposed International Health Regulations amendments, unlimited control is what they will have -- and it is we who will have given it to them.

HUMAN GUINEA PIGS: Pfizer Vials Contain Varying Levels of Toxicity and Ingredients Which Were Tested on the People – Exposing The Darkness – May 13, 2024 - Includes 4 min. video

Excerpt: "There can only be strategic intent here, not mishap or even coincidence" - Dr. Mike Yeadon (2022)

Pfizer deliberately has been using the people as human guinea pigs, testing the levels of toxicity and formulations.

Sasha Latypova: The FDA allowed Pfizer to trial different versions of the drug, different categories entirely; *Modified RNA, unmodified RNA, and self-amplifying RNA. They also used the spike protein as a product by itself.*

This is why we're seeing some batches much more toxic than others leading to a greater number of deaths and adverse events.

Trilateral Commission Policy On Immigration Destroyed Britain (And It Will Destroy America, Too) – Technocracy News - POSTED BY: THOMAS BROOKE VIA REMIX NEWS MAY 13, 2024

People thought to be migrants are brought in to Dungeness, Kent, after being rescued from a small boat in the English Channel (Gareth Fuller via Getty Images)

Excerpt: Trilateral Commissioner Peter Sutherland (1946-2018), hailed as the “Father of Globalization,” was the undisputed architect of Europe’s disastrous immigration policy. This scurrilous rat set the immigration quotas for Europe and then enforced them as nations resisted the Islamic invasion. Nobody today has a clue how this happened.

As I wrote in 2018,

Peter Sutherland was the point man for the Trilateral Commission’s effort to establish its *New International Economic Order* and served as its Chairman and Honorary Chairman of the European Group for many years.

Sutherland was the founding Director-General of the World Trade Organization (1993-1995), Chairman of Goldman Sachs International (1995-2015) and Chairman of BP (1997-2010), Europe’s largest oil company.

He was the undisputed architect of Europe’s disastrous immigration policy which many have called an intentional ‘immigration invasion’ of Europe. His appointment to the *United Nations Special Representative of the Secretary-General for International Migration* in 2006 lasted until 2017. During those early years, Sutherland hammered on EU member-states to set liberal immigration quotas and after the Islamic invasion was straining Europe’s resources and patience, he ‘enforced’ those same nations to honor their original quotas.

In April 2016 I wrote about Sutherland in [Sustainable Development, Migration And The Multi-Cultural Destruction Of The Nation State](#). I documented Sutherland’s subsequent indifference to the suffering caused by his migration invasion of Europe when he stated,

“Human mobility benefits not only migrants and their families, but their countries of origin and destination as well... No other force—not trade, not capital flows has the potential to transform lives in the sustainable, positive ways and on the scale that migration does.”

An advocate of the Trilateral Commission’s 1973 doctrine of ‘interdependence’, Sutherland wrote in [Migration is Development](#) in 2013,

“...there is no greater symbol of the world’s growing interdependence than the movement of people. If we can make meaningful economic progress in the coming generations, one of the pivotal reasons will be that people are allowed to move more freely. Advanced countries, with their adverse demographic trends, need migrants, as do developing countries — not only for migrants’ economic contributions, but also for the social and cultural diversity that they bring.” [emphasis added]

A complete advocate of Sustainable Development, Sutherland once stated that the only path to Sustainable Development was to be found through multiculturalism, or migration.

The same Trilateral Commission policies on immigration were applied in the United States. - TN

The Global Fertility Rate Is Dropping Dramatically As The Effects Of Abortion And Man-Made Global Pandemics Creating A ‘Demographic Winter’ – Now The End Begins - May 13, 2024 - By Geoffrey Grider

Excerpt: The world is at a startling demographic milestone. Sometime soon, the global fertility rate will drop below the point needed to keep population constant. It may have already happened.

Years ago, we told you about something called [The Georgia Guidestones](#), stone tablets that were mysteriously set up and graven with what appeared to be the constitution of the coming kingdom of Antichrist. At the height of the pandemic in 2022, The Georgia Guidestones were just as mysteriously [demolished in the middle of the night](#). You might say that whoever did that was getting rid of the evidence of the [depopulation agenda](#) espoused by the global elites. Eugenicist [Bill Gates](#) is very happy about today’s news of a rapidly-declining global population, something he’s spent billions to help create.

“In Rama was there a voice heard, lamentation, and weeping, and great mourning, Rachel weeping for her children, and would not be comforted, because they are not.” Matthew 2:18 (KJB)

Between 1973 and 2021, abortion in America [reduced our population](#) by an eye-popping 63,459,781 souls! We are 20% *smaller* than we would have been had those babies been allowed to be born. This sad fact has been repeated around the world thanks to the [Gospel of Bill Gates](#) promoting his Hitlerian eugenic ideas. Take Social Security for example. All the money paid into it has long-since been taken and spent by past corrupt administrations, and the only thing keeping it alive is the new money from workers coming in. But when you reduce the number of workers, everything else drops as well. The global elites have already [built their bunkers](#) in which they hope to ‘ride out the apocalypse’, but far from keeping them safe, it will be their last step on a path that ends in the pit of Hell.

Trilateral Commission Built China From The Ground Up – Patrick Wood's The Quickening Report – May 13, 2024

Excerpt: This traitorous organization is destroying America

The following text is from [The Genesis of Modern Globalization](#), written by Antony C. Sutton (1925-2002) and myself in 1978. We nailed it then, and I continue to nail it today. Thanks to Zbigniew Brzezinski and David Rockefeller (founders of the Trilateral Commission in 1973),

China morphed into a Technocracy by at least 2000. Read Brzezinski's [Between Two Ages: America's Role in the Technetronic Era](#), "originally prepared under the auspices of the Research Institute on Communist Affairs, Columbia University."

Why nobody cares is beyond me because they are still actively pushing it today. Current Trilateral Commission members currently in the Biden Administration are:

- Ajay Banga, President of the World Bank
- Douglas Beck, Director, Defense Innovation Unit, U.S. Department of Defense
- Anthony Blinken, U.S. Secretary of State
- Lael Brainard, Director, National Economic Council
- Mark Brzezinski, U.S. Ambassador to Poland
- R. Nicholas Burns, U.S. Ambassador to China
- Joseph Kennedy III, U.S. Special Envoy to Northern Ireland for Economic Affairs
- David Lipton, First Deputy Managing Director, International Monetary Fund
- Scott Nathan, Chief Executive Officer of the U.S. International Development Finance Corporation (DFC)
- Wendy Sherman, U.S. Deputy Secretary of State
- Jake Sullivan, U.S. National Security Advisor
- Richard Verma, Deputy Secretary of State for Management and Resources

Especially note the Secretary of State, the Ambassador to China, the Director of the World Bank, Deputy Director of the International Monetary Fund and the National Security Advisor. You can't make this stuff up!

[Ukraine facing 'a nightmare' – CNN – RT – May 14, 2024](#)

Excerpt: President Vladimir Zelensky may have to make “tough choices” in the face of the new Russian offensive in the east,

The new Russian offensive in the eastern Ukrainian region of Kharkov could force President Vladimir Zelensky to make sacrifices in order to hold the front line, CNN's chief international security correspondent believes.

The Russian Army has captured nine villages since it launched an offensive on Friday, according to the Russian Defense Ministry. Ukraine's General Staff conceded that the Russians have had “*tactical success*,” and reported heavy fighting for control of the border town of Volchansk.

CNN’s Nick Paton Walsh offered a grimmer assessment of the situation on the battlefield on Monday, describing the progress made by the Russian troops as “*arguably their fastest advance since the first days of the war.*”

“This is a nightmare for Kyiv for two reasons: firstly, they liberated this land from Russian forces 18 months ago, yet failed, clearly, to fortify the area enough to prevent Moscow sweeping back with the ease with which they were swept out,” the veteran warzone reporter outlined.

“And secondly, Russia can again tie up Ukraine’s overstretched army with constant and grinding pressure on Kharkiv, exacting a toll with crude shelling on a vast urban center,” he argued. Paton Walsh added that Zelensky faces “*ugly choices about where to send limited resources, and where ultimately to sacrifice.*”

Thousands of Islamists protest against ‘censorship’ in Hamburg after calls for a caliphate in Germany are banned – REMIX – May 13, 2024 – BY THOMAS BROOKE

Excerpt: The Salafist group organizers claimed unfair censorship after strict conditions were imposed on Muslims calling for a caliphate in Germany and against anti-Semitic rhetoric.

Thousands of Islamists took to the streets of Hamburg again on Saturday for what organizers called a “defense of Islamic values” in the face of political intimidation and media censorship.

The protest was organized by Muslim Interaktiv, a group under investigation by Hamburg’s domestic intelligence agency for “extremism.” It claimed on its social media accounts that over 6,000 Muslims had turned out to participate, although police estimates put the figure closer to 2,300.

The demonstration was in response to recent attempts by German politicians to restrict the group’s activities after a recent march in the port city sparked outrage amid calls for Germany to become a caliphate under Sharia Law, and participants chanted anti-Semitic slogans.

**House Democrats Pushing to Permit Migrants to Vote – Armstrong Economics -
Posted May 13, 2024 - By Martin Armstrong**

Excerpt: A few votes could change the course of history. The Equal Representation Act questions whether illegal migrants should appear on the next US census in 2030, effectively granting them representation. The 206 to 202 vote was passed on party lines, with ALL Democrats voting in favor of permitting illegal migrants to be counted as American citizens for redistricting purposes.

The repopulation theory is not a conspiracy. The Democrats are losing the favor of the people rapidly, and the new world order is on the line because citizens simply will not vote for these extreme measures that ultimately weaken America.

“Though commonsense dictates that only citizens should be counted for apportionment purposes, [illegal aliens have nonetheless recently been counted toward the final tallies that determine how many House seats each state is allocated and the number of electoral votes it will wield in presidential elections.](#)” Rep. Chuck Edwards, R-N.C., who championed the bill, stated. Yet, the Democrats completely oppose questioning a person’s citizenship on the census for political purposes.

WEST POINT’S TEACHING WOKE: CROSS-DRESSING, UNDOING PATRIOTISM – Independent Sentinel - By M DOWLING -May 5, 2024

Excerpt: Former Rep. Scott Taylor, a former Navy SEAL, posted a list of four classes taught at West Point, which were sent to him. They have to be a deliberate effort to destroy our military, one class at a time. I wonder if the Chinese Communist Party is funding this. If not, they should. It’s the easiest way for them to take us over. Look at this and see what I mean.

The classes:

- **Deconstructing Patriotism: Exploring Postmodernism and US Army Recruitment Amidst the Lack of a National Narrative.**
- **Uniformed Perspectives: The Evolution of Cross-Dressing in the Military and Gender Norms.**
- **Do My Leaders ‘Get Me? Unpacking the Importance of Representation in the Military.**
- **Harder Rights: An Approach to Espoused Values and Behavior Inconsistency.**

Cross-dressers in the military? Gender Norms? They also plan to distort patriotism into an anti-American woke ideology that thinks we aren't a great nation and shouldn't be too proud. It also espouses the need to consider what other nations think of us as we assess our worth.

Technocracy Is Not Socialism Or Communism – Technocracy News - POSTED BY: PETER CRITCHLEY MAY 14, 2024

Excerpt: All who think we are fighting Socialism, Communism, or Fascism are in for a rude awakening when they are all thrown under the bus by Technocracy. All socialists, communists, and fascists will be there too. Technocracy is a scourge on humanity, destroying the souls of men, women, and children. It will destroy any political system that challenges its autocratic control. When it finally dawns on you, you will be looking straight into the face of Hell.

Technocracy will twist your mind like a pretzel, for it is “the science of social engineering” from the start. It will fool you into thinking that “system change” is possible, but this author correctly notes, that *“close analysis quickly reveals that there is no system-change involved in technocratic designs, no restructuring of power relations, no uprooting of the accumulative capital logic, and no supplanting of social forms.”*

Technocracy will kill all political systems. It will kill all economic systems. It will kill all educational systems. It will destroy what it means to be human.

There is no point pushing back against Technocracy. It will assimilate you like the Borg in an old Star Trek movie. There is only one way to destroy technocracy: pull it out by the root and throw it into the trash bin of history. – TN Editor

Many conservative critics are making the mistake of equating Globalism with Socialism and Communism. This is a political misidentification with serious political consequences, not least when the conservatism they espouse is in truth a ‘small government’ economic neoliberalism which, in fragmenting social supports and structures, invites a collectivist re-regulation from the outside and from above. In other words, it is neoliberals and their policies which give technocrats their rationale. ‘Globalism’ is actually Technocracy, not socialism; it is a ‘Progressivism’ which

is aligned with the new ‘acceptable’ face of the capital system as it undergoes an internal transition away from the ‘old’ (‘extractive,’ fossil fuel) forms. This has serious political implications.

Goldman CEO Issues Warning as Interest Costs on America’s Ballooning Debt Exceed Spending on Defense, Medicare – Epoch Times - By Tom Ozimek - 5/13/2024 -Updated:5/14/2024

Excerpt: Goldman Sachs CEO David M. Solomon is the latest business leader to sound the alarm on the Biden administration’s deficit spending, which comes as the cost of making interest payments on the United States’ ballooning government debt has exceeded spending in both the critical sectors of defense and Medicare.

“I think the level of debt in the United States [and] the level of spending is something that we need a sharper focus on and more dialogue around than what we’ve seen,” the investment banking chief told Bloomberg Television on May 13, adding that if something isn’t done to rein in the spending, it could create problems.

His remarks come as the cost of servicing the United States’ ballooning government debt reached \$514 billion for the first seven months of the current fiscal year, becoming the [second largest line item in the budget](#).

Interest spending—now the fastest-growing part of the budget—is currently greater than all the money spent on education (\$128 billion), transportation (\$70 billion), and veterans (\$183 billion) combined.

The nonpartisan Committee for a Responsible Federal Budget (CRFB) predicted that, by 2051, spending on interest will be the largest line item in the budget. Currently, only Social Security spending (\$837 billion) is greater than what’s being forked over to service the nation’s growing debt.

“Rising debt will continue to put upward pressure on interest rates. Without reforms to reduce the debt and interest, interest costs will keep rising, crowd out spending on other priorities, and burden future generations,” the CRFB said in a statement.

Patrick Byrne says 12 million illegals will grab preplaced weapons to kill Americans and use Mayorkas’s invasion network app to coordinate - James Hill MD’s Newsletter – May 15, 2024

Excerpt: In a January 2024 interview, Overstock.com founder and ex-CEO [Patrick Byrne](#) remarked (video above at 1:22):

If you go back to 2015, 2016, there was this strange thing Obama did.

He bought several million AR-15s or M4s and a trillion rounds of ammunition.

And they're spread in post offices and the IRS, and you know there's 1300 federal agencies, and each one has a depot of arms to the teeth.

I think those arms were prepositioned for the 10 or 12 million military-age males who have just been recruited through this [Homeland Security phone] app.

I've actually been saying that for a while.

Host:

Do you have a name for the app? [Editor: It's called [CBP One](#).]

Patrick Byrne:

Not offhand, but they're finding it on all their phones, no matter where they come from: Pakistan, Africa, South America.

There's one app that people download globally, and it helps them on their whole journey to the Southern border of the US.

It's a recruiting tool for soldiers to come fight, is what I understand.

[Trudeau government pledges \\$1.7 million to target pro-family African nations with LGBT propaganda](#) – LIFE SITE – Clare Marie Merkowsky -Tue May 14, 2024 - 3:03 pm EDT

Excerpt: OTTAWA, Ontario ([LifeSiteNews](#)) — The Canadian Liberal government has promised \$1.7 million in taxpayer dollars to push the LGBT agenda abroad and to target pro-family laws in Africa.

On May 9, Liberal MP Anita Vandenberg, parliamentary secretary for International Development Minister Ahmed Hussen, [pledged](#) \$1.7 million to international groups devoted to promoting the LGBT agenda worldwide.

“We know that groups who oppose 2SLGBTQI+ rights [sic] are increasingly well-funded and globally co-ordinated,” Vandenberg said at the conference hosted by the “Dignity Network,” a coalition of Canadian groups that push LGBT ideology around the world.

At the conference, LGBT activists complained that while Prime Minister Justin Trudeau promises funds for the LGBT movement, the funds are slow to arrive.

According to Vandenberg, \$1 million of the funding will be spent on a U.S.-led research project that aims to stop “stigma” and “discrimination” against so-called “2SLGBTQI+ people.”

Newly-Unveiled Portrait Of King Charles III Swimming In A ‘Sea Of Blood Red’ Shows The Image Of Baphomet When Placed Side By Side In Reverse – Now The End Begins - May 15, 2024 - By Geoffrey Grider

Excerpt: The brand-new and official royal portrait of King Charles III ‘swimming in a sea of red’ officially confirms conspiracy theories about him being the Antichrist

Even though I still see [Emmanuel Macron](#) as the leading candidate for the biblical ‘man of sin’, what [King Charles III](#) did yesterday when he unveiled his brand-new official portrait of himself was a total rock star move. You might even say it was, as the English might remark, ‘just a tad shocking’. If King Charles III was looking to keep his name alive amongst end times students of prophecy, he nailed it yesterday. A direct descendant of [Vlad the Impaler](#) who waits 70 years to become king of England, and his official portrait has him swimming in a sea of blood red. Well done, old chap, and cheerio. But wait, there’s something else you should know.

“For they have shed the blood of saints and prophets, and thou hast given them blood to drink; for they are worthy.” Revelation 16:6 (KJB)

Not only is his portrait swimming in a sea of blood red, it is also a huge portrait, approaching [Genesis 6 giants](#) size. As if the red was not shocking enough it has to be physically intimidating as well. Now let’s talk about that butterfly. King Charles III attends a church that at one time was a Christian church, the Church of England, but in our day is a functional Roman Catholic institution. Charles is well-versed and steeped in New Age spirituality, so the butterfly in his portrait would signal his ‘rebirth’ as a king, a ‘new beginning’, as well as perhaps a ‘message from the spirit world’. Whatever you think of him and his portrait, people across the

board are duly shocked by what they saw, and they should be. It is a shocking piece of art, and just maybe, a message of what's to come. One last thing. In the main photo for this article, I took the liberty of showing you his portrait two times, with the one photo given a horizontal 180-degree flip. If you look in the middle of this hand-painted and intentional portrait, you see the [head of Baphomet](#). But I'm sure that's just another one of those crazy 'coincidences', right?

Ex-CDC Director Warns Gain-of-Function Research on Bird Flu Could Spark 'Great Pandemic' – Epoch Times - By Tom Ozimek, Reporter - 5/13/2024 - Updated: 5/15/2024

Excerpt: Dr. Robert Redfield, former director of the Centers for Disease Control and Prevention (CDC), has issued a grim warning about the dangers of gain-of-function research, predicting that scientists tinkering with making the bird flu virus more infectious is what will trigger the next “great pandemic.”

Dr. Redfield, who in the past [railed against](#) the use of U.S. tax dollars to fund gain-of-function research at the Chinese virus lab at the heart of the COVID-19 origin controversy, is once again sounding the alarm on the dangers of risky scientific experiments going badly awry.

In a [recent interview](#) on NewsNation, Dr. Redfield recalled a recent op-ed he wrote in The Wall Street Journal calling for a moratorium on gain-of-function research, which involves altering the properties of a pathogen, such as its virulence, in order to study its potential impact on human health.

Proponents of such research argue it can help scientists better learn how the virus behaves and spreads, and so come up with counter-measures more effectively. Opponents say the potential benefits are outweighed by the risks such research poses as it makes viruses more lethal.

“I don't think that research should be done,” Dr. Redfield told NewsNation. “That's the real threat. That's the real biosecurity threat, that these university labs are doing these bio-experiments that are intentionally modifying viruses—and I think bird flu I think is going to be the cause of a great pandemic—where they are teaching these viruses how to be more infectious for humans.”

Dr. Redfield's remarks come amid a multi-state outbreak of the Highly Pathogenic Avian Influenza (HPAI) H5N1 virus, commonly known as the bird flu, in dairy cows. The virus has been detected in 42 dairy cattle herds across nine states as of May 13, [according to](#) the U.S. Department of Agriculture (USDA). Only one case of human infection with the virus has been reported.

Bird Flu Gain-of-Function Research?

While Dr. Redfield said that there's a "pretty heavy" species barrier (consisting of a five-amino-acid change) for the virus to overcome through natural mutations to become infectious to humans, he said that barrier could easily be erased by human meddling.
