## OpenAI Disbands Safety Team That Was Put In Place So Artificial Intelligence Would Have Safeguards In Mad Rush To Bring About The Singularity – Now The End Begins - May 18, 2024 - By Geoffrey Grider

Excerpt: OpenAI on Friday confirmed that it has disbanded a team devoted to mitigating the long-term dangers of super-smart artificial intelligence.

The changes are happening so fast now that you might not even be aware that you are living in a science fiction futuristic movie where AI computer technology catches up with every day human life, beginning the process of taking over everything on every level. Your King James

Bible has long shown you end times technology, you just didn't know what it was when you read it. Now you do.

“And he had power to give life unto the image of the beast, that the image of the beast should both speak, and cause that as many as would not worship the image of the beast should be killed.” Revelation 13:15 (KJB)

We live in the southernmost state in America, in the country, surrounded by bucolic views of gorgeous farmland with scenes that likely have not changed much in a century. Life appears to move slower down here, yet it does not. Everyday I get in my car to drive to work, up to 30 different microchips spring into action to allow the smooth-running of my Jeep. I go to make a phone call while I ride, but first must pass the facial recognition shield protecting my mobile device. Far overhead, a ring of [thousands of satellites](#) are circling the Earth, constantly monitoring activity far below. It is at that moment it hits me again that we are living in *very* modern times, in fact, living in the future that writers, artists and filmmakers said would one day arrive. It is here. Headlines announcing Air Force pilots [encountering UFOs](#) barely get a notice anymore, everyone knows ‘they’ are here now, it’s become commonplace. We are the generation that sees the merging of man and machine, but we are also the generation that boards [Flight #777 on Titus213 Airlines](#). That’s what time it is.

**[Russia, China and Iran Must Not Seize Control of Sudan](#) – Gatestone Institute -  
by Con Coughlin - May 16, 2024 at 5:30 am**

**Excerpt:**

- Moscow has undertaken a radical change in its involvement in the Sudanese conflict, with the Kremlin now providing al-Burhan's Islamist-aligned SAF its "uncapped" military support.
- In return, Moscow is hoping the Sudanese leader will honour a deal struck in 2020 to allow Russia to establish a naval base in Port Sudan, a move that would enable the Russian navy to threaten directly Western trade routes passing through the Red Sea.
- If, as now seems likely, both Russia and Iran, together with China, succeed in deepening their foothold in Sudan, as well as gaining access to key maritime bases such as Port Sudan, they will be in a strong position to challenge the West's ability to protect key shipping routes in the Red Sea.
- Iran's presence in Sudan, moreover, will present a major challenge to Israel: it will complete Tehran's strategic encirclement of the Israelis.
- The Western powers must act urgently to protect this pivotal African state from falling into the hands of hostile autocratic regimes, such as Iran, Russia and China, which seek to

use Sudan as a base from which to maintain their assault of the West and its key allies in the region.

**World Health Organization 'One Health' Trojan Horse Is Just Weeks Away** – Prophecy News Watch - BY DAVID BOWEN/LAMB & LION MINISTRIES MAY 17, 2024

**Excerpt: The world is just a few weeks away from the global acceptance of the World Health Organization pandemic treaty, known as WHO. This treaty includes the "One Health" agenda and is designed to "balance" the health of people, animals, and plants, as though all three are of equal value.**

### One Health

Adopting the "One Health" approach will affect multiple aspects of everyday life, from agriculture and farming to livestock and food production to environmental issues. The "One Health" agenda is designed to globally declare possible pandemic-type risks, which will naturally lead to forced lockdowns and restrictions placed upon the private sector. The solution will be more mass vaccinations and, for the safety of the general public, more types of surveillance on private citizens.

In 2018, the National One Health Steering Committee (NOHSC) and Technical Working Groups (TWG) agreed to a five-year strategic plan. Part of that strategic plan is the Global Health Security Agenda. What is that? The Global Health Security Agenda (GHSA) is a global effort to

strengthen the world's ability to prevent, detect, and respond to infectious disease threats. More than 70 countries, including the United States, have signed onto the GHSA framework.

The U.S. Centers for Disease Control and Prevention (CDC), which works directly with other governments, plays a leading role in supporting progress towards the GHSA's targeted goals for 2024.

**NIH Director FINALLY Forced To Admit That US Taxpayers Paid For COVID-19 ‘Gain Of Function’ Experiments At Infamous Wuhan Death Lab In China** – Now The End Begins - May 16, 2024 - By Geoffrey Grider

**Excerpt: National Institutes of Health director finally admits to gain-of-function experimentation on COVID-19 at infamous death lab in Wuhan China**

All during the pandemic, the United States government engaged in direct and overt censorship of any and all news reporting that attempt to tell people the truth about the origins of the man-made COVID-19 virus. Now 4 years later, groups like the National Institutes of Health are being forced to admit what everyone has known all along.

“And ye shall know the truth, and the truth shall make you free.” John 8:32 (KJB)

COVID-19 did not come from ‘bats in the wet market’ anymore than HIV came from monkeys, or a single ‘magic bullet’ from a single shooter killed Kennedy, these are stories invented by the people who do these deeds to cover their tracks. When the next pandemic comes, it will also be the result of gain-of-function laboratory experimentation intentionally released. NTEB has been [suspended and banned](#) so many times on so many platforms during the ongoing purge that we’ve stopped counting, but we will never stop bringing you the truth about what the [New World Order](#) has planned for you next...*TO THE FIGHT!!!*

**FROM THE NY POST: *At long last, National Institutes of Health (NIH) principal deputy director Lawrence Tabak admitted to Congress Thursday that US taxpayers funded gain-of-function research at the Wuhan Institute of Virology in China in the months and years before the COVID-19 pandemic.***

***“Dr. Tabak,” asked Rep. Debbie Lesko (R-Ariz.) of the Select Subcommittee on the Coronavirus Pandemic, “did NIH fund gain-of-function research at the Wuhan Institute of Virology through [Manhattan-based nonprofit] EcoHealth [Alliance]?”***

***“It depends on your definition of gain-of-function research,” Tabak answered. “If you’re speaking about the generic term, yes, we did.”***

**ULTIMATE BIOWEAPON: Despite All the DISTRACTIONS, the Pandemic Was Always About Getting As Many Humans “Vaccinated” As Possible – Exposing The Darkness – May 17, 2024**

**Excerpt: Today's war gas chambers are bioweapons disguised as vaccines.**

**By S.D. Wells May 15, 2024**

The pandemic end game was always about injecting the masses with the ultimate depopulation bioweapon of the globalists – mRNA "vaccines."

Forget about the torture of lockdowns, the brain-suffocating masks, the society-crippling social distancing mandates, because it was, is and always will be about getting people injected with millions of forever-prions. Who's distracted? Who got so caught up in the frenzy, that they actually agreed to the most dangerous medical experiment in the history of Western Medicine?

Meet the mRNA-bioweapon disguised as a vaccine

Talk about camouflage. The mRNA so-called "vaccine" (which does NOT qualify as one) was planned to infect the entire human body with toxic spike prions that bind together using nanotechnology, clog the vascular system, pollute the cleansing organs, strain the heart, freak out the immune system, disrupt the central nervous system, and destroy any fetus. It gets worse.

What if you had "free medical coverage" to help you pay for the treatments you will need after being injected with the "technological" formula that tricks your cells into producing millions of toxic, virus-mimicking prions? Does that sound like a good deal? It's like telling people to shoot themselves in the foot with a shotgun, and then any medical work they need to help recover from the injury is covered. Sounds great, right? Where is the end of the line for that?

Today's war gas chambers are bioweapons disguised as vaccines. Today's nuclear war isn't nuclear at all, but it's likely to give you cancer, and a heart attack too, by using spike proteins to trick your body into malfunctioning, forever. How many years does each Covid jab remove from human existence? Is it decades? Did you know that since the Wuhan jab rollout, cancer rates are skyrocketing? What "standard of care" helps fight cancer that's invading every part of your body via every blood vessel?

**End game was, is and always will be about "vaccinating" as many sheeple as possible.**

**Pfizer Whistleblower: Up to 1/3rd Pfizer Vials Contained Graphene Oxide – Exposing The Darkness – May 18, 2024**

**Excerpt: "The first thing I found was in...June or July of 2021, and it was a graphene-oxide report from Spain that this lab had found graphene oxide in one vial of Pfizer vaccine..."**

Pfizer Whistleblower Melissa McAtee found evidence on Pfizer's internal database from a lab in Spain that their COVID injection vials had graphene oxide. When she followed up on an update, 28/100 vials contained graphene oxide.

"The first thing I found was in...June or July of 2021, and it was a graphene-oxide report from Spain that this lab had found graphene oxide in one vial of Pfizer vaccine that didn't have a full dosage in it," McAtee tells Brian Hooker in a recent Children's Health Defense video.

The whistleblower adds, "they compared it under microscope to 100 percent graphene oxide and they determined that it looks almost identical, but requested more samples so that they could do a more structural chemical analysis than just visual."

**Iran's New Proxy: American Universities – Gatestone Institute - by Robert Williams**  
**- May 19, 2024 at 5:00 am**

**Excerpt:**

- "We are watching the demonstrations, and we like what we see, but it should not end with this.... These protestors are our people and will support Iran in an Iran-U.S. confrontation; Iran can repeat in the U.S. what it did in Lebanon but on a grander scale because the 'Hizbullah -style' groups in the U.S. are 'much larger' than in Lebanon.... America is the Great Satan and our enemy, but we have hope in these areas." — Foad Izadi, Teheran University, who studied at University of Houston and Louisiana State University, Ofogh TV (Iran), April 26, 2024.
- [Hezbollah's Deputy Secretary-General Sheikh Naim] Qassem – who appeared almost taken aback at the eagerness of students on US campuses to join Hamas in its call for the genocide of Jews – was hopeful about the ability of America's students to help Hezbollah destroy Israel by turning the U.S. against its ally.
- "We found evidence that the government of Iran really controlled everything about the [Alavi] foundation," Adam Kaufmann, investigations chief at the Manhattan District Attorney's Office, November 22, 2009.
- The Alavi Foundation, according to its website, has indeed funded many of the universities where protests were taking place. The universities include those of the Ivy league, such as Columbia, Harvard, Princeton, Rutgers, as well as UCLA and many others.
- In 2016, Harvard employed Ali Akbar Alikhani – who had warned about "the Jewish threat" -- from Tehran University's Faculty of World Studies, which is reportedly closely

tied to the Iranian ruling regime, as a visiting scholar at Harvard's Center for Middle Eastern studies....

- Hooshang Amirahmadi, the founder of the American Iranian Council (AIC), has admitted that the lobbying organization was created by the Islamic Republic of Iran to work for its interests in the US. Amirahmadi has had and continues to enjoy a successful academic career at Rutgers University....
- Some faculty members at Rutgers recently called for the genocide of Jews.
- In addition, at least five US universities -- Virginia Tech University, the University of Washington, Worcester Polytechnic Institute, Clarkson University, and the University of Louisiana at Lafayette -- have allegedly been cooperating with Iranian entities that are sanctioned by the US and the European Union, including the Iranian Aerospace Research Institute, Iran University of Science and Technology, and the Sharif University of Technology.
- Iran can only be rejoicing at the moral and educational collapse they have helped create on American university campuses, which are grooming America's future teachers, judges and political leaders. Now, however, these campuses appear to be incubating America's future terrorists and creating a national security threat.

**Biden FBI issues terror alert warning of Islamic attack on U.S. ‘Pride Month’ events without mentioning Islam – Leo Hohmann – May 17, 2024**

**Excerpt: The FBI and Homeland Security have issued an alert warning that Gay Pride events scheduled for cities throughout the U.S. during June “Pride Month” may be targeted by ISIS and other Islamic terrorist organizations.**

Of course, our woke federal law-enforcement agencies never utter the word Islamic, Islamic State, or Muslim.

Here’s what they said in a release issued this week:

“Foreign terrorist organizations or supporters may seek to exploit increased gatherings associated with the upcoming June 2024 Pride Month.”

The warning explained that so-called foreign terrorist organizations, or FTOs, will make efforts to “commit or inspire violence against holiday celebrations, including Pride celebrations or LGBTQIA+-related venues, are compounded by the current heightened threat environment in the United States and other Western countries.”

**More Chinese Nationals Illegally Entered The U.S. In Two Days This Month Than In All Of 2021** – The Federalist - BY: CHUCK DEVORE AND AMMON BLAIR - MAY 16, 2024

**Excerpt: The implications are not just limited to espionage but extend to the potential for creating societal disruptions and furthering the CCP’s global influence campaign in America.**

President Joe Biden has completely abandoned U.S. border security. Of the some 10 million people who have illegally entered America under Biden’s unwatchful reign, a particularly alarming threat has emerged: a massive increase in the number of Chinese nationals illegally crossing our borders.

This phenomenon not only underscores a significant breach in national security but also facilitates greater infiltration by the Chinese Communist Party (CCP) into the United States, posing substantial risks not sufficiently addressed by current federal policies.

**Poverty & Homelessness Are Fueling Rampant Theft And Violence In Major US Cities** – Prophecy News Watch - BY MICHAEL SNYDER/END OF THE AMERICAN DREAM - MAY 17, 2024

**Excerpt: The tremendous chaos that is gripping communities all over this country did not emerge out of a vacuum. For years, poverty and homelessness have been on the rise. According to a recent report from Harvard University, the number of homeless Americans has increased by almost 50 percent in less than a decade.**

... Everyone knows that homelessness is out of control in large coastal cities such as Los Angeles and New York, but we are seeing the same thing happen in the middle of the country too...

*Nashville residents say they are increasingly struggling to afford a home as an influx of out-of-state buyers drive real estate prices up, leaving many with no where to go.*

*Rates of chronic homelessness in the Tennessee capital have soared 77 percent this year, according to the city's official stats.*

77 percent in one year.

Take a moment and let that number sink in.

Many of these homeless people are actually working, but affording a place to live is out of reach.

Today, the average one bedroom apartment in Nashville will set you back more than \$1,400 a month...

*Rent for a one-bedroom apartment in the Nashville area soared \$200 in the past year to \$1,442 a month, according to the U.S. Department of Housing and Urban Development.*

*Young said without more affordable housing, the issue will worsen: 'I guarantee you it's going to double from where we are now.'*

And home prices in Nashville have soared to absurd heights...

*The median home sale price in Nashville at the end of February was \$414,012, compared to \$290,983 five years prior.*

**[Desperate Ukraine Launches Massive Kamikaze Drone Attack Against Russian Black Sea Coast, Sparking Fire At Major Refinery](#) – ZeroHedge - BY TYLER DURDEN - FRIDAY, MAY 17, 2024 - 12:00 PM**

**Excerpt: In defiance of repeated warnings from the Biden administration, the Ukrainian military continues ramping up kamikaze drone attacks on the Russian energy complex, a move to crush the nation's crude oil and crude product export revenues and curtail Moscow's ability to fund President Putin's 'special operation' in Ukraine.**

A fire broke out overnight at Rosneft PJSC's large Tuapse refinery on the Black Sea. According to Bloomberg, this wave of overnight drone attacks is one of the largest by Ukraine in the multi-year war.

The Tuapse refinery is the only refinery in Russia located on the Black Sea. It produces naphtha, fuel oil, vacuum gas oil, and high-sulfur diesel, which it exports to Turkey, China, Malaysia, and Singapore.

**[Why the dollar will lose its status as the global reserve currency](#) – Schiff Sovereign - by James Hickman on May 13, 2024**

**Excerpt: ... When Rome was ransomed in 408 (then sacked in 410), it was obvious to everyone at the time that the Emperor no longer had a grip on power.**

And before long, most of the lands in the West that Rome had once dominated– Italy, Spain, France, Britain, North Africa, etc. were under control of various Barbarian tribes and kingdoms.

The Visigoths, Ostrogoths, Vandals, Franks, Angles, Saxons, Burgundians, Berbers, etc. all established independent kingdoms. And for a while, there was no dominant superpower in western Europe. It was a multi-polar world. And the transition was rather abrupt.

**This is what I think is happening now– we're experiencing a similar transition, and it seems equally abrupt.**

**The United States has been the world's dominant superpower for decades. But like Rome in the later stage of its empire, the US is clearly in decline. This should not be a controversial statement.**

Let's not be dramatic; it's important to stay focused on facts and reality. The US economy is still vast and potent, and the country is blessed with an abundance of natural resources— incredibly fertile farmland, some of the world's largest freshwater resources, and incalculable reserves of energy and other key commodities.

In fact, it's amazing the people in charge have managed to screw it up so badly. And yet they have.

The national debt is out of control, rising by trillions of dollars each year. Debt growth, in fact, substantially outpaces US economic growth.

Social Security is insolvent, and the program's own trustees (including the US Treasury Secretary) admit that its major trust fund will run out of money in just nine years.

The people in charge never seem to miss an opportunity to dismantle capitalism (i.e. the economic system that created so much prosperity to begin with) brick by brick.

**Excerpt: "Never before has our freedom been in such mortal danger. We ignore the warning signs at our peril."**

**By [Dr. Vernon Coleman](#)**

To say that I don't have much experience of social media is like saying I don't have much experience of picnicking on top of Mount Everest. There was no social media when I was growing up and when I eventually tried to sign up for a Facebook account in early 2020, I was told that I was too dangerous to be allowed access to the platform. They seemed to think I might corrupt the Facebook community with unwelcome truths and thought provoking ideas. I was banned from Linked-In too. And I haven't been able to open accounts on any social media site. Worse still, anyone who tries to share my videos and articles is likely to find themselves threatened with a ban.

I did have a YouTube account for a while and that grew to around 250,000 subscribers in a couple of months before they banned me for life (and, presumably out of spite, also banned me from accessing anyone else's YouTube channel). YouTube was clearly under the direction of the CIA, and in the UK I always suspected that BBC staff were acting as spotters for YouTube –

drawing their attention to anything that contained uncomfortable and therefore unacceptable truths.

**Excerpt: A female union boss for rail workers describes "civil war" conditions, train workers locking themselves in train cars out of fear, and bloody assaults that are leaving train workers traumatized — all exacerbated by politicians who talk of successful "integration"**

German train workers are exposed to insults, harassment, violence, and even the threat of knife attacks from migrants on such a regular basis that it is making their jobs unbearable, warns a German trade union representing railway workers in the state of Thuringia.

German trains are becoming more and more dangerous due to mass immigration, and shocking headlines week after week, [along with actual police statistics](#), confirm this trend. The union warns that young asylum seekers are the main perpetrators in the growing number of cases, and for the staff in Thuringia, train work is “sometimes life-threatening,” according to the trade union.

**UNDP: Why Legal Identity Is Crucial To Tackling The Climate And Energy Crisis – Technocracy News - POSTED BY: ARIA, VERMA, SHARMA VIA THE UNDP MAY 20, 2024**

**Excerpt:** The United Nations Development Programme (UNDP) is revealing its plan for Technocracy, which is predicated on digital identity for all humans on Earth. Climate and energy have nothing to do with it. The 850 million people who have no identity (in poorer countries) are hardly the cause of global warming. Nevertheless, the UNDP claims that “national ID systems are indispensable tools in confronting the climate and energy crisis.”

Read their rationale below:

1. **Identifying the displaced** – “tracking population movements, facilitating swift access to essential information for each human being.”
2. **Using digital ID for registration** – “Digital legal IDs for citizens enable the capture of disaggregated data by age, gender, disability, and income, offering insights into the diverse impacts of disasters on different groups.”
3. **Disaster preparedness and emergency management** – “Digital legal IDs play a pivotal role in disaster preparedness, particularly within critical infrastructure sectors such as energy.”
4. **Energy system sustainability and resilience** – “Leveraging digital legal ID data to track energy consumption, inspire behaviour change, and enhance sustainability measures can mitigate climate-related disasters.”
5. **Empowering communities** – “Digital legal IDs revolutionize community participation in the energy sector by providing secure access to energy resources and enabling energy trading within community microgrids.” – TN Editor

In an era where legal identity is the gateway to essential services, [850 million people](#) worldwide lack the means to establish theirs. This global identity gap, however, finds a potential bridge in the embrace of digitalization, with a major side benefit, a blog post by [UNDP claims](#).

Digital legal identity stands as a cornerstone of digital public infrastructure, offering a pathway to inclusion and efficiency through interoperability among diverse systems.

Foundational registries like civil and national ID databases provide data for evidence-based policymaking. Yet, the integrity of this data relies on protection measures for privacy and security.

UNDP authors say sectors such as environment, energy, and social security are poised to benefit from this data. It supports risk management strategies in the face of disasters and the climate crisis, improving access to information for citizens regarding disaster and emergency response.
