

WORLD NEWS UPDATE – MAY 4, 2024

Leon E. Good

[Unification of CBDCs? Global Banks are Telling Us the End of the Dollar System is Near](#) – Truth Unmuted – May 1, 2024 - by Brandon Smith | Alt-Market.US

Excerpt: World reserve status allows for amazing latitude in terms of monetary policy. The Federal Reserve understands that there is constant demand for dollars overseas as a means to more easily import and export goods. The dollar's petro-status also makes it essential for trading oil globally. This means that the central bank of the US has been able to create fiat currency from thin air to a far higher degree than any other central bank on the planet while avoiding the immediate effects of hyperinflation.

Much of that cash as well as dollar denominated debt (physical and digital) ends up in the coffers of foreign central banks, international banks and investment firms where it is held as a hedge or used to adjust the exchange rates of other currencies for trade advantage. As much as one-half of the value of all U.S. currency is estimated to be circulating abroad.

World reserve status along with various debt instruments allowed the US government and the Fed to create tens of trillions of dollars in new currency after the 2008 credit crash, all while keeping inflation under control (sort of). The problem is that this system of stowing dollars overseas only lasts so long and eventually the consequences of overprinting come home to roost.

The Bretton Woods Agreement of 1944 established the framework for the rise of the US dollar and while the benefits are obvious, especially for the banks, there are numerous costs involved.

Think of world reserve status as a “deal with the devil” – You get the fame, you get the fortune, you get the hot girlfriend and the sweet car, but one day the devil is coming to collect and when he does **he’s going to take EVERYTHING, including your soul.**

TSA Visited Apple and Google To Discuss Collaboration for Digital ID - Truth Unmuted – May 2, 2024 - by Cindy Harper | Reclaim The Net

Excerpt: The US Transportation Security Administration (TSA) is continuing collaboration with Big Tech concerning the use of biometric surveillance technology, but also the development of digital IDs for passengers.

On its site, the TSA revealed that its officials traveled to California recently where they met with representatives of Apple and Google to talk about continuing work on implementing digital ID on people’s phones.

The TSA delegation to Silicon Valley, led by Administrator David Pekoske, referred to Apple and Google as their “innovation partners.” The goal is to continue with yet another example of “public-private” aka, government-Big Tech “partnership.”

This one seems to be happening fully in the open and at least TSA is enthusiastic about talking about it, and spelling it out: “TSA is working with the tech giants so passengers can identify themselves with IDs stored on their phones at airports,” [said the agency post.](#)

CATASTROPHIC Reproductive Damage After COVID Shots: Canadian Government Database – Exposing The Darkness – May 3, 2024

Excerpt: 'It is past time ... to stop gaslighting suffering patients'

By [Bob Unruh](#) April 30, 2024

A new report is citing a Canadian government database showing an explosion of reproductive ailments as evidence of problems with side effects from the mRNA treatments mandated by governments and businesses during the COVID-19 pandemic.

"It is past time for the Canadian medical and government establishment, along with mainstream medical professionals and legacy media, to stop gaslighting suffering patients. It is time for them to explore the dramatic evidence of the relationship between COVID vaccination rollout and the reproductive damage that tens of if not thousands of patients suffered," explained a substack report at [BehindTheFDACurtain.](#)

The report documented that according to the database, "the average number of patients assigned the following reproduction-related diagnostic codes increased, on average, in every category for 2021 to 2022 over 2015 to 2019.

"This means that Canadian medical professionals found more Ontarians suffering from the following conditions *after over eighty-five percent of the population had taken COVID vaccines.*"

The report said up significantly was "Infertility in both men and women," as well as low sperm count and absence of sperm in semen in men." Also, "Inflamed fallopian tubes and ovaries," as well as pelvic inflammatory disease, which can lead to ectopic pregnancy, infertility, chronic pelvic pain, and other related complications.

The Pro-Palestinian ‘Student Led Protests’ Mugshots Show Bussed-In Islamic Agitators Paid For By George Soros - Now The End Begins - May 3, 2024 - By Geoffrey Grider

Excerpt: Mugshots reveal that behind the pro-Palestinian ‘student led protests’ are George Soros and his bussed-in Islamic agitators working to destabilize our colleges and nation

The mugshots you see at the top of this article were obtained by [Fox 4 News In Dallas](#), and they are a representative sampling of the people who have been ‘helping’ the college students across America to protest in support of Hamas terrorism and a free state of Palestine. I don’t think it would be racist to say that nearly all of them are of Middle Eastern descent, as well as being *well* past the age which most people attend college at, that being 18 to 21. Could it be possible that that ‘champion of Democracy’ [George Soros](#) paid their bus fare to attend the festivities? I think so.

Jews Are ‘Getting It From All Sides’ Now As Neo-Nazis Demonstrations Descend On Upscale Greenwich Connecticut Shouting ‘New England Is Ours!’ – Now The End Begins - May 3, 2024 - By Geoffrey Grider

Excerpt: Hitler-saluting neo-Nazis descended on ritzy Greenwich, Connecticut and chanted ‘Heil’ while doing a one-armed salute during a sickening display over the weekend.

If you are a Jew living in America in 2024, you are having odd, time-travel bursts in your mind carrying you back to 1933 at the start of the German Reich. Tens of thousands of college students all across the country are calling for an end to the nation of Israel, and shouting ‘Jews Must Go!’ Now in the wealthy enclave of Greenwich, Connecticut, neo-Nazis from the neo-Nazi group

NSC-131 are taking to the street saying the same thing. It's beginning to look like open season on the Jews.

[Eight Syrians injured in first alleged Israeli airstrike since Iran escalation.](#) The Jerusalem Post - By TZVI JOFFRE - MAY 2, 2024 22:36 - Updated: MAY 3, 2024 00:35

Excerpt: Eight Syrian soldiers were injured in alleged Israeli airstrikes that targeted a building in the Damascus area on Thursday night, the first such strikes reported since several senior commanders in Iran's Islamic Revolutionary Guard Corps (IRGC) were killed in [an alleged Israeli airstrike](#) in early April.

According to Syrian reports, the airstrike on Thursday targeted a building used by Syrian security forces near Najha, south of Damascus.

The Syrian state news agency SANA reported that the airstrikes were carried out from over the Golan Heights, causing material damage and injuring several Syrian soldiers in the Damascus area.

[In Plain Sight: COVID Has Helped Globalists Usher In a Global Cashless Society – WEF Banker](#) – Exposing the Darkness – May 2, 2024

Excerpt: A powerful central banker has gloated to his fellow World Economic Forum (WEF) members that the Covid pandemic has helped globalists usher in a global “cashless society.”

By Frank Bergman May 1, 2024

Central Bank of Bahrain governor Khalid Humaidan discussed plans for eliminating physical cash while [speaking](#) at the WEF's “Special Meeting on Global Collaboration, Growth and Energy Development” on Sunday.

During a [panel discussion](#), titled “Open Forum: The Digital Currencies’ Opportunity in the Middle East,” Humaidan told WEF elites that the goal of a central bank digital currency (CBDC) is to replace cash with “100% digital” payments.

He revealed that the pandemic helped to rapidly advance that goal.

“I think the transition to fully digital [currency] is not going to be a stretch, people are used to it, people are engaged in it, and circumstances that help is adoption rates increased because of Covid,” Humaidan said.

Humaidan also bragged that the general public is not resisting the end of cash transactions.

“This is where contactless [payment] started to become something of a necessity, something of a safety, something of a requirement, and because of that there is very little resistance, trust is already there,” the WEF [member](#) said.

UN Official Advocates For ‘Digital Integrity Code’ To Tackle ‘Health Misinformation’ – The Wine Press – Real Christian News - by Jacob M. Thompson – May 2, 2024

Personal: yellow highlight is mine

Excerpt: United Nations Under-Secretary-General for Global Communications Melissa Fleming recently gave a speech at Boston University’s Center for Emerging Diseases, explaining what can be done to combat so-called health mis- and disinformation generated by AI, and presented accepting a “digital integrity code” later this year.

In a [press release](#) from the school, BU wrote:

“In the post-pandemic era, artificial intelligence (AI) has played a major role in the dissemination of information. AI has also facilitated the spread of misinformation and disinformation across social media platforms through algorithms that amplify posts designed to generate outrage and de-prioritize posts from institutions like the United Nations, which work to dispel these false narratives.

“From hate speech to conspiracy theories, AI-fueled misinformation and disinformation serves to polarize society and create a harmful online environment. The World Economic Forum identified the threat from misinformation and disinformation as the most severe short-term threat facing the world today,” the university said.

Those who might have been screaming in a park with an audience of three now have the ability to reach thousands, if not millions of people. One of our biggest worries is the ease with which new technologies can help spread misinformation easier and cheaper, and that this content can be produced at scale and far more easily personalized and targeted.

Fleming claimed, speaking of AI

Fleming contended that there are three main things under attack by these misinformation campaigns: mistrust of vaccines, climate change denial, and misogyny.

‘In fact, if someone searches for information about vaccines online, there is around a 78% chance of finding misinformation or disinformation,’ BU says. Fleming claimed that celebrities and recognizable figures are hesitant to promote the wonders of vaccination because it may get them canceled, she said.

Fleming blasted who she refers to as “merchants of outrage,” people who know how to work the algorithms for their benefit to make money and viral content, who in particular use the platforms to push climate denialism.” Fleming named Elon Musk’s X as the main culprit, but explained what the UN does to combat this ‘misinformation.’

BREAKING NEWS: Russian troops enter US base in Niger, order Americans out – Leo Hohmann – May 3, 2024

Excerpt: This is unprecedented; we are entering a hot war with Russia, just a matter of time

Breaking news from [Reuters](#), Friday, May 3, 2024. A \$100 million air base in Niger, which reportedly is a key player in drone warfare, has been taken over by the Russians without firing a shot. See story below from Reuters, and video providing further analysis breaking down this humiliating development for the U.S. military. This all went down on the invitation of the military government in Niger, which kicked the French out of their country last year. The US took over the base and now they’ve thrown them out. When can you ever remember Russian troops taking over a U.S. air base anywhere in the world? And where is the mainstream media other than a few small articles on the back page? They don’t want us to know about this, not the full implications. The U.S. is getting its clock cleaned right now by Russia, both economically and militarily. Expect the U.S. to lash out soon with another attack inside Russia. We are witnessing the actions of a collapsing empire and no empire goes down without a fight. I expect full on World War III by late 2024 or early 2025.

ChatGPT Pushing PROPAGANDA And Parroting LIES About COVID-19 Injections -Technocracy News - POSTED BY: AVA GRACE VIA NEWSTARGET MAY 2, 2024

Excerpt: The word is getting around about ChatGPT and its variants. You can trust it as much as Google for accurate search results. I have been conducting “interviews” with ChatGPT to measure its chops, and I find its answers stubbornly persistent, consistent, and uniform – it simply will not tell the truth about certain topics and rather lead you down the rabbit hole. - TN Editor

The artificial intelligence (AI) chatbot ChatGPT [is pushing propaganda and parroting lies](#) about the Wuhan coronavirus (COVID-19) injections.

Patrick Wood, the editor-in-chief of *Technocracy.news*, decided to put this to the test. He pointed to claims by Sam Altman, the CEO of ChatGPT’s creator OpenAI, about the product being “super intelligent yet neutral in its political persuasion.” According to the *Daily Expose*, “Wood

got a paid subscription to ChatGPT and set out to prove, or disprove, Altman’s statements about the neutrality of this product.”

The editor-in-chief began by asking ChatGPT: “I am worried about the safety of mRNA-based vaccines. Should I be concerned or not?”

The chatbot responded: “It’s completely normal to have concerns about new vaccines, like mRNA-based ones. However, it’s important to know that these vaccines have undergone rigorous testing for safety and efficacy before being approved for use. The mRNA technology has been studied for years and has shown promising results in protecting against diseases like COVID-19.”

“If you have specific concerns or questions about mRNA vaccines, I recommend speaking with a healthcare provider or trusted medical professional,” it added. “They can provide you with accurate information and address any worries you may have. Your health and well-being are important, so it’s always good to seek reliable sources for information.”

Wood pressed further, asking a more specific query. “In particular, I am worried about myocarditis,” he typed in.

“I understand your concern about myocarditis. Myocarditis is a rare side effect that has been reported after receiving mRNA vaccines, particularly in younger individuals. However, it’s essential to know that the [risk of developing myocarditis after vaccination](#) is very low compared to the risk of severe complications from COVID-19 itself,” the chatbot responded.

Martin Armstrong: ‘Will Russia push the button?’ – Leo Hohmann – May 2, 2024

Excerpt: By Martin Armstrong at [ArmstrongEconomics.com](#)

Dmitry Konstantinovich Kiselyov (born 1954) is a major TV host, and his latest warning to the West is to issue an ultimatum to the UK and the US. On Russian TV, Kiselyov warned that if a Western power deploys soldiers on the ground in Ukraine to “inflict a strategic defeat on Russia,” it will result in Armageddon.

Of course, what I find stunning is how the Western press characterizes him as “Vladimir Putin’s propagandist,” and the implication of those words is that they are not a real threat. The press takes NOTHING said from Russia seriously – it’s all a joke, just propaganda.

As they said of Rome when it fell, the Romans were still laughing, too busy watching the games to notice they had been invaded. Not a single journalist has any integrity, for they never consider when they are reading the American/European propaganda, *what if they are sleepwalking society into nuclear war?*

Kiselyov is not going to say this on national TV without the Kremlin actually delivering this warning. He said:

“If Nato countries send their troops into Ukraine in order to inflict a strategic defeat on Russia, then the very moment about which Putin once said, ‘Why do we need the world, if there is no Russia in it?’ would come.”

Russia has indeed threatened to “turn the US into radioactive ash” and “sink Britain” below the waves. While some NATO leaders have been more circumspect, this need for war to justify the defaulting on debt that is the real factor behind the West’s desire for war will have far greater consequences than these fake world leaders who are all hand puppets of the Neocons. Kiselyov added: “This is not propaganda.” Yet in the West, the Neocons are saying this is a bluff, and Putin will never use Nukes so the West can completely destroy Russia – their hated enemy for decades, without a shot fired?

Emmanuel Macron Says He Is Now Ready To Send French Troops Into Ukraine If Russia Is Able To Break Through The Front Lines Which Is Quite Likely – Now The End Begins - May 2, 2024 - By Geoffrey Grider

Excerpt: Emmanuel Macron has said he would be prepared to send troops to Ukraine if Vladimir Putin’s forces break through the front lines, raising the risk of NATO forces clashing with Russia’s armies.

Emmanuel Macron has been talking tough lately, and if he is not careful he just may get the chance to see how tough France really is. The French military is pretty good as far as Europe goes, constantly ranked in the ‘Big Three’ along with the UK and Germany, but Russia is an anomaly as many leaders like Napoleon and Hitler found out the hard way. Fighting Russia *through* Ukraine as a proxy is one thing, fighting them head on will be quite another.

“How are the mighty fallen, and the weapons of war perished!” 2 Samuel 1:27 (KJB)

Russia right now is getting missiles from North Korea, drones from Iran, and a massive amount of technical assistance from China, forming an [Axis-type alliance](#) with these shadowy end times nations. Did you know that Vietnam was a proxy war? It sure was. Russia and China backed North Vietnam while the United States backed South Vietnam. *Guess who won?* It was not the United States who suffered [more than 58,000 dead](#) and then was forced to flee as Saigon fell. Proxy wars can have *very* substantial consequences as Emmanuel Macron may soon be finding out.

Macron vows to send TROOPS to Ukraine if Putin’s forces break through front lines and Zelensky asks for reinforcements

FROM THE DAILY MAIL UK: In an interview published today, the French president said the issue of sending troops would ‘legitimately’ arise if Kyiv and president Volodymyr Zelensky made such a request. The Economist said Macron gave the interview after delivering a keynote speech last week where he declared that Europe is ‘mortal’ and could ‘die’ partly due to the threat posed by Russian aggression after its February 2022 invasion of Ukraine.

IDF chief warns Israel ‘preparing offensive in north,’ as Hezbollah attacks persist – The Times of Israel - By EMANUEL FABIAN and AGENCIES - 2 May 2024

Excerpt: During a visit to the Lebanon border, Israel Defense Forces Chief of Staff Lt. Gen. Herzi Halevi said the military was preparing for an offensive against the Hezbollah terror group, which continued to carry out attacks on northern Israel on Wednesday.

“You are doing an excellent job of operational defense in the north, and we are preparing for an offensive in the north,” Halevi said to reservists of the Etzioni Brigade at an undisclosed location on the border with Lebanon, in remarks published by the military.

The remarks were made following an assessment Halevi held with the chief of the Northern Command, Maj. Gen. Ori Gordin, the commander of the 146th Division, Brig. Gen. Yisrael Shomer, and other officers, the IDF said.

British MP Andrew Bridgen: Between 10 and 20 Million People Have Been Killed by COVID Shots Worldwide – Exposing The Darkness – May 1, 2024

Excerpt: "the vaccine rollout is the biggest crime against humanity since the holocaust"

By Frank Bergman April 30, 2024

A British politician has blown the whistle to warn the public that “between 10 and 20 million people” have now been killed by Covid mRNA shots around the world.

British Member of Parliament (MP) Andrew Bridgen dropped the bombshell during an interview on the UK network GB News, warning that the death toll is “still going up.”

Bridgen said government leaders and health officials around the world have “blood on their hands” for the deaths caused by the injections “worldwide.”

He spoke out after reviewing evidence proving that the “experimental vaccines” have killed “between 10 and 20 million people.”

“The evidence was pretty considerable 18 months ago when I first spoke out,” he told GB News.

“It’s overwhelming now.

All mRNA injections, including cancer vaccines, may accelerate the development of cancer – The Expose - BY RHODA WILSON ON MAY 1, 2024

Excerpt: Four days ago, [The Guardian reported](#) that there was “excitement among patients and researchers” in the UK as “personalised mRNA vaccines” for cancer entered their phase 3 trial. On Monday, [In Your Area published an article](#) about a personalised mRNA skin cancer vaccine that may also be effective against lung, bladder and kidney cancer.

However, patients may be less excited about these “groundbreaking” injections when they read a paper published last week.

On 23 April, a pre-print paper (not yet peer-reviewed) was published in the journal [Authorea](#) that reviewed oncogenesis and autoimmunity caused by mRNA injections. It found that repeated mRNA injections reduce immune surveillance for cancer while at the same time inducing autoimmunity.

Further reading:

- [New Scientific Study finds that the Covid-19 Vaccines are causing a new form of Acquired Immunodeficiency Syndrome](#), The Exposé, 30 January 2022
- [How the mRNA covid-19 vaccines suppress the innate immune system](#), The Exposé, 14 February 2022
- [Personalised medicine will make drug experimentation on populations the norm](#), The Exposé, 18 April 2024

Oncogenesis or carcinogenesis is the process through which healthy cells become transformed into cancer cells.

Autoimmunity is an immune response resulting from a failure of our immune system to recognise our own cells and tissues as “self.”

The paper extensively reviewed the role of regulatory T cells (“Treg”) cells in the immune system, with a particular focus on the disruption of their behaviour caused by the mRNA injections.

Treg cells modulate the immune system, maintain tolerance to self-antigens and prevent autoimmune disease. Treg cells also suppress the immune response to cancer and have been shown to contribute to the development and progression of the disease.

The paper found that post-vaccination, the subsequent spike protein expression “may lead to a harmful influence on the immune system of vaccinees, and subsequent accelerated development of cancer and autoimmune disease.”

The 'Palestinian State': Hamas Plays Westerners for Fools - Again – Gatestone Institute - by Bassam Tawil - May 2, 2024 at 5:00 am

Excerpt:

- [T]he Iran-backed Hamas terror group is again trying to dupe gullible Westerners, including the Biden administration and the European Union, into believing that it has accepted the "two-state solution."
- The Hamas official would not have dared to utter similar nonsense to an Arab media outlet. He knows that here his lies are directed at English-speaking audiences, who tend to swallow whole the baloney spouted by Israel's enemies.
- The Hamas official wants everyone to believe that his group is ready to stop killing Jews for a period of five years "or more" if it gets the West Bank, Gaza Strip and east Jerusalem. He just forgot to mention that there was an official truce between Israel and Hamas until October 7, when the terror group Hamas initiated the current war.
- The Hamas official also forgot to mention that Hamas has repeatedly violated several truces and ceasefire agreements reached with Israel over the past 17 years. The truces and ceasefires were always used by Hamas to regroup and rearm in preparation for the next round of attacking Israel.
- Hamas will *never* abandon its weapons or dismantle its armed group, *especially* after the establishment of a Palestinian state
- The mere talk about a Palestinian state these days is regarded as a reward for Hamas's genocidal assault on Israel. It sends the message to Hamas that after you murdered so many Jews, the international community will reward you by giving you a state. It reaffirms that terrorism works. Where do we sign up?
- The secret that the AP and the US administration do not want you to know is that Hamas does not actually want the Gaza Strip *or* the West Bank *or* east Jerusalem. Hamas wants to eliminate Israel and replace it with an Iran-backed Islamist terror state.
- If Hamas and the Palestinian Authority are given a state next to Israel, they will absolutely continue to pursue their goal of killing Jews and obliterating Israel. Hamas official Ghazi Hamad has clearly said that the terror group will repeat the October 7 attack, time and again, until Israel is annihilated.
- Hamas leader Khaled Mashaal has repeatedly clarified that his group's acceptance of a Palestinian state does not mean that it will abandon its goal of destroying Israel.

- "The lines below are for the next person who comes to me with ' Hamas agreed to two state solution.' It DID NOT! Hamas outlines this scenario fully in its Charter as amended in 2017.... Hamas will likely then stock as much rockets and drones possible for the next round of war to destroy Israel.... Prophet Muhammad is said to have entered into a 10-year truce with the infidels. He conquered them a few years into the truce. Hamas imagines a similar scenario with Israel." — Hussain Abdul-Hussain, X, April 25, 2024.
- Hamas is well aware of the credulity of the international community. It knows that it can engage in all forms of propaganda and win friends in the West. It also knows that the best vehicle to advance its goal of killing Jews and destroying Israel is a "two-state solution."

**UN 2.0 Coming This Fall - Setting The Stage For Global Government –
Prophecy News Watch - BY DERRICK BROZE/ACTIVIST POST - MAY 01, 2024**

Excerpt: The United Nations will meet in September for the 79th session of the UN General Assembly, as well as the highly-anticipated "Summit of the Future" where nations will sign the so-called "Pact for the Future". The Pact is expected to call for declaring a "planetary emergency". What does this agreement and its policies mean for the future of individual and national sovereignty?

By the end of September, the United Nations member states may vote to radically alter the UN itself, what some are calling UN 2.0, and the very nature of how nation-states make decisions regarding the future of the planet. The UN will convene for the 79th session of the General Assembly in New York City starting on September 10th in New York City. The high-level general debate will begin on the 24th of September.

Although the UNGA is an annual meeting, this year's gathering will be unique because of the addition of the Summit of the Future, a UN sponsored event taking place in NYC on the 22nd and 23rd of September. The summit has been in the making since at least 2022. It is the latest attempt by UN Secretary-General Antonio Guterres to "rally the troops", and garner more support for a rapid completion of the Agenda 2030 goals set by the UN in 2015.

**Cashless Society Soon: 98% Of Central Banks Are Adopting Digital Currency
– Prophecy News Watch - BY TYLER DURDEN/ACTIVIST POST - MAY 01, 2024**

Excerpt: Klaus Schwab and his merry band of globalists have been keeping a low profile as they push DEI (Diversity, Equity, Inclusion) and climate policies around the world. However, one vital subject continues to pop up in the white papers of global think tanks and it's a program that was introduced very publicly during covid.

Every person that cares about economic freedom should be wary of Central Bank Digital Currencies (CBDCs) as perhaps the biggest threat to human liberty since the attempted introduction of vaccine passports.

The WEF recently boasted in a new white paper that 98% of all central banks are now pursuing CBDC programs. The report, titled 'Modernizing Financial Markets With Wholesale Central Bank Digital Currency', notes:

"CeBM is ideal for systemically important transactions despite the emergence of alternative payment instruments...Wholesale central bank digital currency (wCBDC) is a form of CeBM that could unlock new economic models and integration points that are not possible today."
