

Spiritual & Prophetic Discernment Series - Issue #135

Leon E. Good April 14, 2025

[Smart Cities: Pathway To Global Surveillance](#) – PNW - By Robert Williams/Gatestone Institute - April 11, 2025

Excerpt: Once upon a time, long before the Covid-19 lockdowns, the West pretended to be concerned about things such as freedom, the right to privacy, and the dangers of surveillance and data harvesting from its citizens. China's surveillance police state was, at least publicly, mostly described as an abomination that threatened human rights -- not an example to emulate.

Sadly, that no longer seems to be the case. For years, in the name of environmental sustainability, energy efficiency, safety and convenience, the United Nations and the World Economic Forum (WEF), led by Klaus Schwab, have been promoting global surveillance in the form of so-called "smart cities." In China, already by 2018, there were more than 500 smart cities in place.

During Covid-19, the UN and the WEF came up with a slogan: "Build back better" - recycled by then US President Joe Biden. Countless national leaders, like little programmed UN/WEF bots, endlessly repeated the slogan, while most unsuspecting citizens had no idea what it meant.

National leaders began thanking the Covid-19 pandemic for offering a once-in-a-lifetime "opportunity to build back better" from the destruction that their very own Covid-19 policies - notably the lockdowns - had wrought. Biden introduced a trillion dollar Build Back Better Plan, having as one of its highest priorities, "the fight against climate change," through building "smart infrastructure."

Warning: Famous Gay Jewish Leader Wants to Rewrite the Bible Using AI – Living Waters

Personal Note: This is an important 17 min. video which will clue you in on some of the plans they have for AI.

I have been familiar with this Jewish “expert” Yuval Hariri for multiple years, and he seems to be one of Lucifer’s primary designers for his coming “short” kingdom. As I said to a discernment friend this AM - God’s grace, mercy, and patience is amazing - to allow one of his chosen race to be so evil – but God is not surprised – he prophesied this system to be for real in Rev. 13.

God’s Staying Hand – Terry James Prophecy Line – Apr. 13, 2025

Excerpt: While I think on and write this commentary for posting April 14, there are powerful storms brewing to the west in Oklahoma. This time of year always brings angst about the tornadic thunderstorms that threaten during the springtime in the mid-South. This one is particularly threatening, the weather gurus are saying. Long-track tornadoes are possible, even likely, and the rain, they say, could be the likes of which we haven’t experienced in...maybe...fifty years or so.

By now, at the time you read this, of course, that threat is long gone, and we have likely faced similar weather fronts since.

Always, while the storms are forming and approaching, we pray for God’s protection—that His hand govern so people aren’t harmed.

There is building at this moment in our world a storm potentially far worse than a long-track tornado that destroys only what’s in a relatively narrow path. World War III is looming

across the horizon, and it is from the east, rather than from the west, from whence the tornadic thunderstorms come.

The threats have been building and ongoing for months and have come more intensely into focus within recent weeks and days.

Technocracy Is The Beast System – Technocracy News - Posted By: Stuart Murray via Substack - April 11, 2025

Excerpt: Once upon a time, the Tower of Babel was constructed as a monument to man’s ego while spitting in the face of God. Nothing has changed as the latest Tower of Babel seeks to take over humanity, turn the created world upside down, escape into space, and, yes, once again spit in the face of God. Technocrat is code for psychopath: impaired empathy and remorse, along with megalomaniac traits, masked by superficial charm and immunity to stress.”

Key traits associated with psychopathy include:

- **Interpersonal characteristics:** Superficial charm, deceitfulness, manipulateness.
- **Emotional traits:** Lack of empathy, remorse, and emotional depth.
- **Behavioral tendencies:** Impulsivity, irresponsibility, thrill-seeking, and antisocial behavior

All Technocrats are not psychopaths, but those at the top of the pyramid certainly are. - Patrick Wood, Editor.

What is the Beast System? It is the modern Satanic leviathan of human technological advances that allows a small group of powerful individuals and families to enslave humanity through a network of surveillance and connectivity that spans the globe and from which there is no escape (if we allow it).

I think few people really understand what technocracy is. It is being brought in at lightning speed, so everyone would do well to learn about it.

By the time you finish this article, I want you to understand these three things and how they tie together:

- **“Build Back Better” was the new slogan in 2020 used by many world leaders**
- **Elon Musk said he is “Dark MAGA”**
- **Trump said you won’t have to vote anymore**

Technocracy was a social movement active in the United States and Canada in the 1930s. It was seen as a third option better than partisan politics and communism. The movement proposed replacing politicians with scientists and engineers. Elon Musk's maternal grandfather was Joshua N. Haldeman (1902–1974). Between 1936 and 1941, Haldeman was the leader of a Canadian group known as *Technocracy Incorporated*. He was arrested and incarcerated for a short time in Canada for his involvement with this group that was considered subversive. After 1941, he joined the *Social Credit Party* and was openly in favor of *Universal Basic Income* (UBI). Like his grandfather, Elon Musk is a fervent promoter of technocracy, social credit systems, and UBI.
